Special Surplus Trade Bulletin

FEBRUARY 15, 1926

FERN AND FLOWER FARM

EDWARD GILLET, Proprietor

Southwick, Massachusetts

The plant material offered in this special bulletin covers stock shipped direct from North Carolina to purchaser.

The prices apply to orders calling for 50 or more of one kind. Where less than 50 are ordered add 10% to the unit price.

Boxing will be charged in addition at cost, unless a sufficient quantity is ordered to make a carload shipment, in which instance no charge for packing will be made.

My shipping season in North Carolina opens about March 1st; many things can be shipped before then.

Orders will be executed under the usual trade conditions.

A certificate of inspection accompanies each shipment.

Key to abbreviations--Coll. collected; cls. clumps; trans. transplanted and grown one year or more in the nursery; stg. strong stock; s. seedlings in seed beds.
